Montage Main article: Montage is the technique by which separate pieces of film are selected, edited, and then pieced together to make a new section of film. A scene could show a man going into battle, with flashbacks to his youth and to his home-life and with added special effects, placed into the film after filming is complete. As these were all filmed separately, and perhaps with different actors, the final version is called a montage. Directors developed a theory of montage, beginning with Eisenstein and the complex juxtaposition of images in his film Battleship Potemkin.3 Incorporation of musical and visual counterpoint, and scene development through mise en scene, editing, and effects has led to more complex techniques comparable to those used in opera and ballet.

The Association of Independent Commercial Producers AICP released a set of guidelines and work place practices in early-May 2020 as restrictions began to lift across the U.S. This set included specific guidelines for all departments and worksites involved in productions.166167 An industry task force of studios and unions submitted a report on June 1, 2020, with various recommendations on health and safety guidelines for cast and crew of productions. These guidelines include regular testing, wearing face coverings at all times when not filming, actors practicing social distancing whenever possible, reducing or modifying scenes involving close contact, and recommending that casting be performed via videoconferencing or self-recorded video rather than in-person.168169

On June 5, 2020, Governor of California Gavin Newsom announced that film and television production could resume in the state beginning June 12, provided that conditions permit and approval is received from a countys public health officials.170 Newsom incorporated key guidelines from the task forces report.171 The next day, a group of unions including the Directors Guild of America, the International Alliance of Theatrical Stage Employees, the International Brotherhood of Teamsters, and SAG-AFTRA published a 36-page report detailing safety protocols agreed upon for union film and television productions, including regular testing of cast and crew members, closed sets, access zones, shooting limited to ten hour sessions, and all productions requiring an on-set health safety supervisor.172173 On February 9, 2021, it was announced that Blue Sky Studios, an animation studio which had

been acquired by Disney during its purchase of 21st Century Fox, would be closed due to the economic impact of the pandemic on their business operations. The closure of Blue Sky also resulted in its cancellation of a film adaptation of Nimona, which was reported to be 75% complete
